# HARNESS THE **POWER** OF THE SUN

Quantum CCTV & Networks Solar-Tech division provides installation, support, and maintenance of industrial and commercial Solar Inverter solutions across all industries including commercial buildings, Service stations, educational and school premises.

# WE MAKE SOLAR SIMPLE – SUSTAINABLE – COST EFFECTIVE

We provide unique solutions to achieve the following:

- Reduce monthly electrical billing costs by substituting grid power with cost effective Solar power showing an overall cost saving.
- Considerable reduction of carbon footprint
- Integration into existing Generator power to greatly reduce diesel/fuel usage during power outages and load shedding cycles.
- Great overall saving over the life of the installed Solar solution.
- Contractual terms customised to 5,7 and 10 years through our in-house finance department
- 25year warranty on installed Solar panels and per manufacturers standards
- Low Maintenance and Service costs – Service level agreements including servicing and callouts.
- Finance Rental options on end-to-end systems available.

## INVERTER INTEGRATION DIRECTLY INTO EXISTING POWER GRID

– Photonote Group Installation – Monthly cost saving up to 50% on average
